**505A HOWARD STREET**  
**RIVERTON, NEW JERSEY 08077**

Dear Residents and Business Owners:

In accordance with our NJDEP Tier A Municipal Stormwater General Permit, the Borough has adopted various Ordinances to regulate the impact of stormwater runoff and pollutants on the environment. As part of our Local Public Education Program, the purpose of this letter is to highlight the requirements and environmental benefits of these Ordinances.

1. **Pet Waste:** This Ordinance requires pet owners to pick up and properly dispose of pet waste dropped on public or other people's property. It prevents fecal contamination from impacting the local waterways.
2. **Litter:** This Ordinance states that it is unlawful to throw, drop, or discard or otherwise place litter of any nature upon any public or private property, other than in a letter receptacle. The purpose of the Ordinance is to prevent unsightly and unsanitary conditions and prevent litter from impacting waterways.
3. **Improper Disposal of Waste:** This Ordinance states that it is illegal to dispose of waste in any place not specifically designated for the purpose of solid waste storage or disposal. The purpose of the Ordinance is to prevent unsanitary conditions and groundwater pollution.
4. **Wildlife Feeding:** Feeding of water fowl on municipal park property is prohibited by Ordinance. The Borough enacted the Ordinance as a method to reduce water fowl population in response to health concerns regarding bacteria which is harmful to human and fish populations.
5. **Yard Waste:** Yard waste is regulated via Ordinances which establish the current zone collection system and the methods of collecting leaves, brush and other yard waste. The purpose of the Ordinances is to keep leaves and grass out of the storm sewer system.
6. **Illicit Connections:** This Ordinance makes it unlawful to connect any pipe or device to the municipal storm sewer system that is intended to discard, spill or dump any material other than stormwater runoff or groundwater (sump pumps) into the system. The purpose of this Ordinance is to prevent pollution and contamination of waterways which receive discharge from our storm sewers.

The transport of pollutants into local water bodies can result in the destruction of fish, wildlife and habitats; threats to public health and the loss of recreational aesthetic value.

We have enacted the above Ordinance to protect our environment, and to keep pollutants that are commonly conveyed by stormwater from adversely impacting our waterways and groundwater supplies. These Ordinances can be found in the section entitled Borough Codes/Ordinances on the official Borough of Riverton website at [www.riverton-nj.com](http://www.riverton-nj.com)

Thank you for your continued cooperation with our environmental protection efforts.

Sincerely,

William C. Brown, Jr.  
Mayor
